

Michigan Institute for Plasma Science and Engineering Fall 2018 Seminar Series

<i>Date, Time, Place</i>	<i>Speaker</i>	<i>Title</i>
Wednesday 26 September 2018 3:30 - 4:30 pm 1005 EECS	Prof. John Cary University of Colorado-Boulder	Use of Computation for Understanding Plasmas
Wednesday 10 October 2018 3:30 - 4:30 pm 1005 EECS	Prof. Richard Wirz University of California-Los Angeles	Plasma Interactions with Materials, Metamaterials, and Photonic Crystals
Wednesday 31 October 2018 3:30 - 4:30 pm 1005 EECS	Prof. Jeffrey Oishi Bates College	Solving (Stellar) Flows: Methods, Software, and Results
Wednesday 14 November 2018 3:50 - 4:50 pm 1005 EECS	Dr. Svetlana Starikovskaia Laboratory of Plasma Physics (LPP), CNRS, France	Kinetics of Nanosecond Discharges at High Specific Energy Release
Wednesday 5 December 2018 3:30 - 4:30 pm 1005 EECS	Dr. John Kline Los Alamos National Laboratory	Deconstructing Integrated High Energy Density Physics Experiments into Fundamental Models for Validation
