

Postdoctoral Position in Plasma Science and Engineering, University of Minnesota

This position is to participate in research focused on plasma enabled conversion of methane and plasma catalysis. We are looking for a postdoctoral researcher with a recent Ph.D. degree in plasma science / engineering, chemical engineering, catalysis or closely related field. Experience in plasma source design and diagnostics is preferred. The postdoctoral researcher should have excellent oral and written communication skills and the ability and desire to collaborate with a team of multidisciplinary researchers. For more information about the research group, please visit the group website: <https://bruggeman.umn.edu/>

Applicants should send a cover letter (including date applicant is available), CV, and reprints of 3 representative publications to **Prof. Peter Bruggeman** (pbruggem@umn.edu).
